SUPPLEMENT TO REPORT NO. 2

1. a. An airfield about 5,000 x 5,000 feet, was located near Seerappen (Q55/Z56) (see Annex). It was not fenced in. The landing field was scantily covered with grass. There were no concrete runways or taxiways.
- b. The following installations were observed at the southern field border:
 - Railroad spur track
 - Large badly damaged hangar
 - Six or seven three-story houses
 - Loading ramp
 - Hangar (160 feet long)
 - Filling station for motor vehicles.
- c. A labor detail of 100 to 150 Soviet penal workers did clearing work at the field. Lime, cement, and bricks were trucked to the airfield
- d. No aircraft were parked at the field.

25X1A [REDACTED] Comment: It is inferred that the Seerappen airfield was not occupied by an air unit in February 1949 but that it was being prepared for re-occupation.
